

How to Print and Assemble

Download the files for the games.

Open in Acrobat Reader

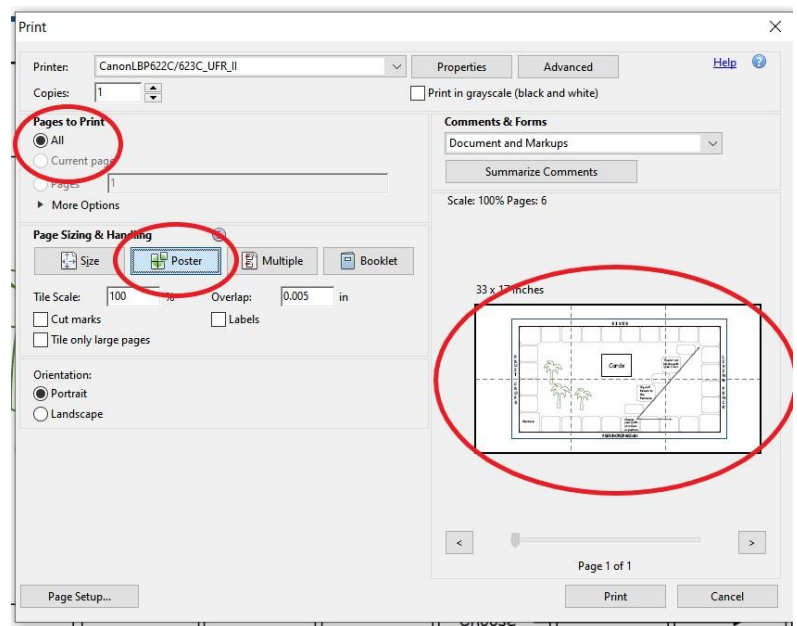

Select Print.

Make sure you are printing single sided.

Select Poster for page size and handling.

You will see that it takes 6 pages of paper.

Print all pages

You could tape or glue game pieces and the board to poster board to make it more durable.

Cut out the dice, player markers and game board.

You will see that the game board has a border for overlapping sections.

Trim off the border

on the sides of both middle sheets and the top edge of the bottom middle sheet.

The pieces then fit nicely together.
